Treasury Update:

2 accounts in collections

3 other accounts more than 1 year overdue. Not pursuing further at this time. Look into it after elections.

Vote to approve Budget for 2019/2020 (Josh, Jim) 3-0

Elections:

We need nominations for the election committee. No volunteers in attendance.

We need at least 2 members for that committee.

Nominations due by May 1.

Mailings out by May 20.

Election meeting last week of June (June 25?)

DPW Proposal:

Questions from the committee:

1. What impact to the trees and marked trails?
2. What equipment will be used?
3. Where will machinery be brought in from and stored?
4. Will any equipment or trailers be parked in our neighborhood?
5. Will workers be parking in our neighborhood?
6. What is the timeline from start of the project to finishing the project?
7. Estimated work hours?
8. Will this project help with runoff behind McGraw Ct down Norton behind the houses? (540 Norton, 542 Norton). Area behind McGraw Ct has eroded away. There used to be land back there to mow, but area has mowed away to the point where it's unmanageable. Discharge/Runoff is coming from that area.
9. Possible extension of study (green line) up to McGraw Ct Manhole as houses most affected by drainage issue are up by the McGraw Ct road on Norton, North Side.

Jim will email, Joe Ports (The Guy from DPW)
